

The Federal Government has dedicated over \$350 billion in relief for small businesses, available through several loan programs. We have laid out each option so that you can carefully consider which loan makes the most sense for your business.

Your eligibility for one may be impacted if you receive the other, but you can either choose the Paycheck Projection Program loan or the Economic Injury Disaster Loan. Once you've made your decision, we look forward to guiding you through the process. Our lending teams continue in their commitment to getting capital into the hands of the small business owners who are vital to our economy.
